

DISPOSAL POLICY OF BREEDING BULLS AT ICAR-CIRB, HISAR/ NABHA

24th April, 2023

The policy for disposal of breeding Murrah bulls at CIRB Hisar and Nili Ravi bulls at Sub Campus Nabha has been revised as below with immediate effect.

A. Category of bulls to be sold from ICAR-CIRB:

1. Breeding bulls whose Dam's standard lactation milk yield is more than 3000 kg in any lactation (As per MSP standard) which were used under Network Project on Buffalo Improvement (NPBI) for semen collection and required number of semen doses have been stored.
2. Surplus young future breeding bulls whose dam's yield is more than 3000 kg but were not selected under NPBI due to any reasons.
3. Bulls/ young males whose dam's yield is less than 3000 kg.

B. The following policy will be used for the sale of bulls under different categories:

1. On receiving the request for the purchase of bulls (dam's yield >3000 kg) from interested organisations/ agencies involved in semen freezing activities, the same will be entertained as per availability of bulls.
2. The preference for selling the bulls will be given to semen stations of Govt. organizations and will be sold on book value. However, for registered NGOs/ private agencies the bulls will be sold with a sale price of 1.25 times of the book value.
3. In case no request from any organisation for purchase of bull is pending and bulls are available for sale, an email will be sent along with the list of bulls available for sale to all potential buyers involved in semen production.
4. If no demand of bull is received within two weeks from any Govt or private agencies engaged in semen freezing, the bulls will be made available for sale on book value to Govt organization/ gram panchayats/ farmers/ individuals for its use in natural breeding on first come first serve basis. If the bulls still remain unsold, then it will be sold through public auction as and when held.
5. Bulls initially selected under NPBI but later found unsuitable for any health/ reproduction abnormalities or any other reason (s) will not be sold for breeding purpose. These bulls will be sold through open public auction along with other surplus culled animals/ males which remain unsold in any category after recommendation of empowered committee constituted for the purpose.
6. Bulls/ young males under the category 3 i.e. whose dam's yield is less than 3000 kg will be sold on book value and on first come first serve basis to the development agencies/ farmers/ individuals for breeding purpose.
7. All the animals of the institute are regularly vaccinated for FMD, HS and BQ. The bulls offered for sale will be free from Brucella, TB and JD, however, buyer may have the sample tested for any disease at their own cost.
8. The book value will be effective on the actual date of purchase.
9. The decision of Director, ICAR-CIRB, Hisar will be final to accept/ reject any offer without assigning any reason.
